

Brainstorm & idea prioritization

Use this template to brainstorm ideas for your own business or to help others brainstorm ideas for their business. Start by listing all the ideas you can think of, then prioritize them based on their potential impact and feasibility.

- 1. Brainstorm ideas
- 2. Prioritize ideas

Before you collaborate

Before you collaborate, it's important to understand the needs and goals of the people you're working with. This will help you to brainstorm ideas that are relevant and useful to them.

- 1. Understand the needs and goals of the people you're working with.
- 2. Brainstorm ideas that are relevant and useful to them.
- 3. Prioritize ideas based on their potential impact and feasibility.

Define your problem statement

Before you can brainstorm ideas, you need to define the problem you're trying to solve. This will help you to focus your brainstorming efforts and generate ideas that are relevant and useful to the problem.

Problem statement

Define your problem statement

Brainstorm ideas

1. Understand the needs and goals of the people you're working with.

2. Brainstorm ideas that are relevant and useful to them.

3. Prioritize ideas based on their potential impact and feasibility.

Write down any ideas that come to mind that address your problem statement.

Write down any ideas that come to mind that address your problem statement. This will help you to generate a large number of ideas, which you can then prioritize based on their potential impact and feasibility.

Brainstorming ideas

Write down any ideas that come to mind that address your problem statement.

Brainstorming ideas

Write down any ideas that come to mind that address your problem statement.

Group ideas

Group ideas into categories based on their potential impact and feasibility. This will help you to identify the most promising ideas and focus your efforts on developing them.
